Subject: Follow-up on OPP ESA consultations

Hi Melissa and Kris,

Ex. 5 - Deliberative Process

I'm reaching out to see if anyone on your team would be willing and available to provide a small overview presentation, in a very casual setting, to our ESA workgroup on this effort this summer or later this year? We have workgroup calls each month, and would be more than willing to accommodate your schedule if you have availability in August, September, or beyond. My sense from the timeframes Melissa shared is that you're in the thick of it for methomyl and carbaryl now, so anytime in the coming months when you'd be available would be wonderful. Please let me know if this is something you'd be willing to do and we can go from there.

Thanks,

Mimi
